

Spring Semester Checklist

ALL DIVISIONS

The following items are associated with program modifications related to the pandemic. It does not list supplies that are part and parcel of the start of school in normal times, which will be communicated separately. Families will be updated regularly as this list grows.

- Obtain four cloth masks for each student.
- Download and begin using our daily symptom check app, [SchoolPass](#), if you own a smartphone. If you do not own a smartphone, you can use the app on your computer.
- Receive a seasonal influenza shot and upload that information to [Magnus](#).
- Receive a COVID-19 vaccine, once it becomes available.
- All PK-12 day families and boarding students should obtain digital oral thermometers in order to take temperature each morning before school.
- All PK-12 day families are encouraged to purchase a pulse oximeter. The School nurse will have a supply on hand for boarding students whose health conditions may warrant using one.
- If a student's return to campus requires air travel, take account of the School's expectations in this regard.
- Reserve time for our virtual orientation sessions for students and their families (dates and times TBD).
- Be alert to the possible need to schedule a gateway COVID-19 test 2-3 days before returning for campus instruction.
- All PK-12 day students should prepare to pack daily lunches and snacks.
- All lower and middle division families must provide the shirt size for their student. Colored shirts will be used to establish cohorts for campus instruction. [Read more about this necessary step in the *Stable cohorts* section here.](#)
- All students in Grades 5-12 should have a set of headphones with built-in microphone (those that come with cell phones work well). They do not need to be wireless. If any student has difficulties acquiring headphones with a microphone, the School will provide a small number on a long-term loan basis.
